

**T**his warm and comfortable family room designed by Judith Lattuca, director of interior design for **Bloomingdale's**, Roosevelt Field, Garden City, Long Island (516-873-2770), is highlighted with brown leather sofas and cherry woods lending the space a library feeling. The wall unit, entertainment center and bookcases are part of Bloomingdale's Provence Collection. Having fun with the paint treatment, the designer added interest to the tray ceiling by abstracting a portion of the Tibetan rug design, transferring it above.
